Minnesota State College – Southeast Technical
 and
Steamboat Days Car Show Committee
 presents

Steamboat Days SOLO

WHEN: June 20th, 2010

Schedule:	Time
Registration:	9:00-2:00*
Technical Inspection:	9:30-11:00
Drivers Meeting:	11:00
Parade Lap:	11:15
First Timed run:	11:30

* Late registration may mean fewer runs, but we will allow late entries for this event.

WHERE: Minnesota State College – Southeast Technical
 1250 Homer Road, Winona, MN
http://www.southeastmn.edu/about_us/mapsTandeski.aspx
 Racer's paddock area is across from the Tandeski Center.

WHAT: Solo event run under current SCCA Solo Safety rules.
 Course will be set up such that it is easy for new participants to understand quickly. Your car will be required to pass a safety inspection. Times will be displayed electronically. A 1st place trophy will be awarded in each of the categories below. Conventional SCCA classes will NOT be followed for this event.

- | | |
|-----------------------------|--|
| FTD Domestic | Event Master's Choice |
| FTD Import | Quickest Naturally Aspirated Machine |
| Most Improved | Quickest Boosted Machine |
| Quickest Classic (pre-1965) | Quickest Automatic Transmission |
| Quickest Muscle Car (65-72) | Fastest 4-door |
| Quickest Carburetor | Fastest Father (this will be Father's Day) |

This is a NON-POINTS EVENT and is therefore NOT part of the regular Land O'Lakes Championship Series.

COST: \$20.00 for SCCA members or non-members.
This low entry fee is made possible by donations from MN State College – SE Tech and Kimo's Pumping Service

WORK: All entrants will be required to work at various positions around the track to help facilitate the event. This generally consists of replacing pylons, noting penalties, and helping ensure a safe event.

MORE INFO: www.scclac.org

DUE TO THE LOCATION OF THE TRACK CLOSE TO RESIDENCES, NOISE LIMITS WILL BE ENFORCED. IF YOUR CAR IS TOO LOUD FOR THE STREET, IT IS TOO LOUD FOR THIS EVENT

presents

2010 SOLO EVENTS and CHAMPIONSHIP

Solo is the SCCA brand name for autocross competition. Solo events are driving skill contests that emphasize the driver's ability and the car's handling characteristics. This is accomplished by driving a course that is designated by traffic cones on a low hazard location, such as a parking lot or inactive airstrip. While speeds are no greater than those normally encountered in legal highway driving, the combination of action, concentration and car feedback creates a real adrenaline pumping experience.

The SCCA classifies a full range of imported and domestic sports cars, sedans, and purpose-built racecars. There is a class for just about any safe vehicle and if not, we may be able to make one for you. The sport typically attracts ordinary cars used for daily transportation, as well as heavily modified vehicles used for racing only. Owners of "street" cars usually inflate the tires to higher than normal pressures, remove the hubcaps, empty the interior of loose items, buckle the seat belts, and have a go. An approved helmet is required for competitors and loaners are available. There are many attractions to these events such as car variety, competition, and especially the friendships formed and renewed in the paddock.

WHERE: Minnesota State College – Southeast Technical, Winona MN
and the
LaCrosse Fairgrounds Speedway, West Salem WI

WHEN: **2008 Schedule** *Check the website for specific event flyers and any schedule changes.*

Saturday	May 15	Test-n-Tune	Winona, MN
Sunday	May 16	Points Event #1	Winona, MN
Sunday	June 13	Points Event #2	West Salem, WI
Sunday	June 20	Steamboat Days	Winona, MN
Saturday	July 10	Test-n-Tune	Winona, MN
Sunday	July 11	Points Event #3	Winona, MN
Saturday	August 21	Test-n-Tune	Winona, MN
Sunday	August 22	Points Event #4	Winona, MN
Sunday	September 26	Points Event #5	West Salem, WI

These events are great opportunities to learn better car control, validate modifications or just gain additional seat time, which there is no substitute for. After a safety inspection and driver's meeting, you are ready for the track with times displayed to 0.001 seconds. Bring a friend and learn just how hard finding that extra half of a second can be!
